ENGINEERING PRACTICE STUDY

TITLE: DLA-DSCC-VAI REVIEW OF MRAP COMMUNICATION EQUIPMENT  
(FSC 5965, HEADSET-MICROPHONE) MATERIAL NUMBERS (MN)

Project Number: 5965-2012-M01

I. OBJECTIVES: Determine feasibility and type of standardization actions for all MRAP (FSC 5965, Headset-Microphone) communication Equipment.

II. BACKGROUND: In order to assure that all MRAP customers are provided with the best possible DoD/DLA support for these FSC 5965, "Headsets, Handsets, Microphones and Speakers" communications equipment, research of "DLA-LndMartm" managed "Headset-Microphone" Material Numbers (MN) were researched, based upon technical requirements, number of supply manufacturers/contractors, PQDR activity, quality of suppliers, methods of procurement (AAC), assigned weapon systems (W/S), dates of last customer demands, last buys {YR/MO(Qty)}, and quantity of stock-on-hand (OH). These results were used to determine the best method of procurement, if a change in the current method is to be recommended.

III. RESULTS: Once research was completed, the 377 (three hundred seventy seven) MN's were reviewed and a proposed DLA-LndMartm-VAI position determined on each. The disposition of each MN falls into one of the following categories:

1. Remain unchanged in the supply system. (377 MN's)
2. Recommended for inclusion in a new or existing "Commercial Item Description (CID)". (0 MN's)
3. Recommended for a cataloging action, to be combined with another MN or canceled, based upon performance issues, duplications, and/or lack of customer demands. (0 MN's)

IV. CONCLUSIONS: DLA-LndMartm-VAI shall take no follow-on actions described in "Background". MN's were found to be (see Attachment 1):

|                                                  |             |
|--------------------------------------------------|-------------|
| • YELLOW = POSSIBLE CANDIDATES                   | (20)        |
| • BLUE = POOR CANDIDATES                         | (250)       |
| • RED = ALREADY STANDARDIZED / FULLY COMPETITIVE | (16)        |
| • GREEN = POSSIBLE CANDIDATE & LTC or IDTC       | (30)        |
| • GRAY = STANDARDIZED / NOT FULLY COMPETITIVE    | (33)        |
| • <u>PURPLE = TERMINAL ITEM</u>                  | <u>(28)</u> |
| • TOTAL                                          | (377)       |

The 20 (twenty) candidate items failed, due to various conditions of the data, which are related to the content, non-availability, and restricted rights. (See Attachment 2)

V. RECOMMENDATIONS:

- a. No additional projects should be taken out as a result of this study.
- b. No cataloging actions should be recommended, to resolve duplicate and closely similar items found.
- c. Procedures for overage review every 5 (five) years should be observed, as long as there are viable MN's within the supply system and military weapon systems assigned.
- d. All questions and comments should be addressed to the DoD-DLA-LndMartm-VA office.
