Dear Mr. Picon:

Re: Stop Shipment, 14-day Contemplated Removal for QPL-26499; FSC 4720; VQ-19-033985; Patterson.
CN: 067692.

This office has been in contact with Metadure Parts & Sales with regards to the necessary corrective action closure evidence from the DLA Land and Maritime-VQC audit for QPL-26499 conducted on August 21, 2018. The required evidence has not been received for review. The documentation was to be received NLT May 31, 2019. Due to non-submission of the aforementioned documentation, this office has placed Metadure Parts & Sales on an **immediate Stop Shipment and Stop Production status** for parts listed on QPL-26499, effective the date of this letter.

If Metadure Parts & Sales would like to continue production and testing, please submit the following documentation for review:

1. Identify each individual DAR and the specific corrective action(s) that Metadure Parts & Sales has taken to close out each deficiency along with applicable evidence (e.g. copy of revised procedures, copy of revised paragraph in a procedure, revised applicable test methods, change notices and training sign off, etc.)
2. Summary status (open/closed) of each DAR contained within DLA Audit Report, "DARs Metadure Aug 2018"

Please submit the documentation to this office within 14 days of the receipt of this letter. Otherwise, DLA Land and Maritime-VQC will be forced to remove, with cause, Metadure Parts and Sales from QPL-26499. Additionally, a corresponding GIDEP notification(s) will be coordinated with DLA Land and Maritime-VP and released to Government Agencies and the QPL-26499 user community detailing the removal. Affected parts are detailed below:

QPL Part Number	Manufacture Part Number
M26499-24	M26499-24
M26499-48	M26499-48

This stop shipment / stop production order will remain in effect until this office approves your submission. If you have any questions concerning this letter, please contact Mr. Philip Patterson at (614) 692-2178.
