CUSTOM HYBRID MICROCIRCUITS

GENERAL REQUIREMENTS FOR

This list has been prepared for use by or for the Government in the acquisition of products covered by Specification MIL-PRF-38534. Listing of a product is not intended to and does not connote endorsement of the product by the Department of Defense. This list is subject to change without notice; revision or amendment of this list will be issued as necessary. The listing of a product does not in any way release the supplier from the compliance with the individual item specification requirements.

THE ACTIVITY RESPONSIBLE FOR THIS QML IS THE DEFENSE SUPPLY CENTER COLUMBUS (DSCC-V). The activity designated as agent for all contacts relative to this QML is the Defense Supply Center Columbus (DSCC-VQ), Columbus, Ohio 43216-5000.

If a manufacturer desires to have test data considered for qualification, he must perform all required qualification tests; the qualification sample must be produced under a valid authorization to test with DSCC certified materials and manufacturing construction techniques; and he must comply with the requirements specified in MIL-PRF-38534 prior to the start of any testing.

The listing of custom hybrid microcircuit materials and manufacturing construction techniques in QML-38534 applies only to products produced on the MIL-PRF-38534 certified line(s) at the plant(s) specified on the QML.

Only those products that have been manufactured, assembled, and tested within the United States and its territories, except as provided by international agreement establishing reciprocal and equivalent quality systems and procedures, can be supplied as qualified custom hybrid QML devices.

Custom hybrid microcircuits manufactured, assembled, and tested in accordance with MIL-PRF-38534 shall bear the "QML" certification mark for SMD controlled hybrid microcircuits and the "CH" (compliant hybrid) certification mark for non-SMD controlled hybrid microcircuits. The certification mark shall be located preceding the date code. The certification mark abbreviation "Q" or "C" may be used for small devices. Products manufactured, assembled, and tested for Class K or Class H, with all the provisions of MIL-PRF-38534, and with DSCC certified materials and manufacturing construction techniques, can be represented as being compliant to the appropriate product assurance levels as listed herein. The information contained in this QML reflects the material and manufacturing techniques of the particular test sample(s). Any product represented as being compliant shall be comprised combinatorially of a manufacturer's listing from the materials and manufacturing construction techniques listed herein, as is necessary to meet the requirements of the user. The user shall be responsible for determining if the QML listing is adequate to demonstrate capability for the intended application. Supplemental testing and listing can be accomplished by application and approval of DSCC-VQ. Testing is not limited to those materials and manufacturing construction techniques currently listed herein. However, testing must be completed and approved before the product can be shipped or used in the intended application.

To obtain MIL-PRF-38534 qualified custom hybrid microcircuits, the procurement document must specify that the product be manufactured to MIL-PRF-38534, and be comprised of materials and manufacturing construction techniques listed herein. Ordering data is contained in paragraph 6.1 of MIL-PRF-38534. Caution: Hybrid microcircuit devices that are built tested and shipped under the QML provision (using certified/qualified manufacturing materials and construction techniques) and in full compliance with MIL-PRF-38534 can be determined by this QML.

Contractor acquiring activities, military program offices, and other government representatives can determine if hybrid microcircuits meet the requirements of MIL-PRF-38534 by:

- a. Product listed in the product eligibility section herein, and

AMSC N/A. DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited

Hybrid Microcircuits

QMI -38534-24

Licensee=Defense Supply Ctr/5913977001
Not for Resale, 06/19/2013 06:57:49 MDT

b. Product marked with "QML" certification for SMD controlled hybrid microcircuits and the "CH" (compliant hybrid) certification mark for non-SMD controlled hybrid microcircuits. The certification mark shall precede the date code. The certification mark abbreviation "Q" or "C" may be used for small devices.

Products that do not meet the above conditions are not manufactured on MIL-PRF-38534 certified/qualified line and are not in full compliance with MIL-PRF-38534 requirements. Hybrid microcircuits that require MIL-PRF-38534 and are not listed herein should be carefully reviewed and verified for contract compliance by the acquisition activity. To determine whether new products are in accordance with MIL-PRF-38534 you may call the agent for the qualifying activity (DSCC-VQ).

This Qualified Manufacturers List (QML) is available from the DSCC-VQ World Wide Web pages. The web pages are accessed at the address <http://www.dscclia.mil/V/VQ/index.html>, and specifically:

- a. <http://www.dscclia.mil/V/VQ/VQH/download/adobe/qml38534.pdf>: Adobe Acrobat PDF version.
- b. <http://www.dscclia.mil/V/VQ/psearch.html>: QML/QPL Part Number Search Engine. This utility allows direct querying of qualified hybrid product information on the Web, with subsequent linking to manufacturer QML program status information (available separately at <http://www.dscclia.mil/V/VQ/VQH/qmlstat/index.html>).
- c. <http://www.dscclia.mil/V/VQ/VQH/download/query/index.html>: Query Tool for MIL-PRF-38534.
- d. <http://www.dscclia.mil/V/VQ/VQH/qml/combo/index.html>: Standard Microcircuit Query Tool, also referred to as the Combined Tool.

The latter two Tools (items c and d) are downloadable applications, suitable for running on most MS-DOS compatible PCs. Downloading, installation, and operating instructions are available from the download pages. These two Tools offer functionality that a paper copy or an Adobe Acrobat file cannot provide. Queries, filtering, and sorting are possible on any table column normally listed in a traditional paper copy.

NOTES:

- 1/ The QML listing can be expanded provided appropriate qualification testing is performed and passed. Therefore the manufacturer may accept an order for complaint product not covered by his QML listing, but shall not ship the compliant product until the testing has been successfully completed.
- 2/ Package seal perimeter is listed by largest perimeter successfully tested in inches.
- 3/ Package lead counts are listed by maximum number of leads covered by qualification.
- 4/ Caution. Do not use this number for item acquisition. Item acquired to this number may not satisfy the performance requirements of the listed SMD.
- 5/ Inactive for new design, no longer available from manufacturer.

Substrate Attach: Eutectic

Package Information 1/ 2/ 3/

Metal package, peripheral leads, seam weld, 6 leads, 4.64 seal perimeter, gold and solder lead finish. TO can package, projection weld, 2 leads, 2.86 seal perimeter, gold and solder lead finish.

Teledyne Microelectronics

Quality System Information

Company: Teledyne Microelectronics, 12964 Panama Street, Los Angeles, CA 90066-6534 (CAGE Code: 16170)

Company Contact: Ms. Marlene Maat, 310-574-2047

DSCC Qualification Contact: Mr. Jim Eschmeyer, 614-692-0591

Certification Status: Class H, Option(s) 1 certified

Qualification Status: Class H

Technology Types

Data Converters, Linear, Microwave

Qualification Letters

EQ(EQM-87-1898), EQ(EQC-91-897), EQ(EQM-94-0085), EQ(EQM-94-0098), EQ(EQM-94-138), ELS(ELSH-94-313)

Substrate Fabrication Operation(s) 1/

Location: Los Angeles, CA

Flow: 7700530 Exhibit 2.5

Capability: Thick film on alumina, 7 conductor levels; Thick film on alumina, 1 conductor level, resistors

Location: Los Angeles, CA

Flow: 7700530 Exhibit 2.4

Capability: Thin film on alumina, 1 conductor level, resistors

Assembly Operation(s) 1/

Location: Los Angeles, CA

Flow: 700530 Exhibit 2.6

Capability: Polymer conductive/nonconductive epoxy, eutectic, and solder; gold, aluminum, and ribbon wire bonding

Location: N/A

Flow: N/A

Capability: N/A

Add-on Elements: Unpackaged die, chip capacitors

Substrate Attach: Solder, polymer nonconductive epoxy

Package Information 1/ 2/ 3/

Metal, peripheral leads, seam weld, 94 leads, 8.75 seal perimeter, gold lead finish. Metal package, axial leads, seam weld, 24 leads, 5.0 seal perimeter, gold lead finish.

Substrate Fabrication Operation(s) 1/

Location: Dallas, TX

Flow: AII-HYB-005

Capability: Thick film on alumina, 5 conductor levels, resistors

Location: N/A

Flow: N/A

Capability: N/A

Assembly Operation(s) 1/

Location: Dallas, TX

Flow: AII-HYB-005

Capability: Polymer conductive/nonconductive epoxy and solder; gold and aluminum wire bonding

Location: N/A

Flow: N/A

Capability: N/A

Add-on Elements: Unpackaged die, chip capacitors, chip resistors, tabs

Substrate Attach: Solder, polymer nonconductive epoxy

Package Information 1/ 2/ 3/

Metal package, axial leads, seam weld, 64 leads, 7.88 seal perimeter, gold lead finish. Metal package, single-in-line, seam weld, 6 leads, 4.62 seal perimeter, gold lead finish. Metal package, axial leads, cap weld, 8 leads, 2.43 seal perimeter, gold lead finish. Metal package, peripheral leads, seam weld, 10 leads, 4.78 seal perimeter, gold lead finish. Ceramic package, dual-in-line, seam weld, 32 leads, 3.30 seal perimeter, gold lead finish. Ceramic package, leadless chip carrier, seam weld, 18 leads, 2.76 seal perimeter, gold lead finish. Ceramic package, side brazed, solder seal, 28 leads, 2.06 seal perimeter, gold lead finish.

Add-on Elements: Unpackaged die, chip capacitors, chip resistors

Substrate Attach: Polymer nonconductive epoxy

Package Information 1/ 2/ 3/

Platform package, projection weld, 16 leads, 3.53 seal perimeter, gold and solder lead finish. Ceramic co-fire package, side brazed leads, seam weld, 68 leads, 5.36 seal perimeter, gold and solder lead finish. Ceramic co-fire package, axial leads, seam weld, 66 leads, 4.58 seal perimeter, gold and solder lead finish.

STANDARDIZED MICROCIRCUIT DRAWING (SMD)

APPROVED SOURCE

MASTER PRODUCT LISTING

TABLE I AND TABLE II

PRODUCT ELIGIBILITY: The manufacturers listed in tables I and II have certified that the Hybrid Microcircuits are built, tested, and shipped using MIL-PRF-38534 CERTIFIED FLOW/QUALIFIED MATERIALS and MANUFACTURING TECHNIQUES and are in FULL COMPLIANCE with MIL-PRF-38534 requirements.
