

APPLICATION/AUTHORIZATION TO CONDUCT QUALIFICATION TEST

Section I

(To be completed by the manufacturer.) By receiving an assigned test report number from DLA Land and Maritime, It is understood that the manufacturer has contacted the appropriate DLA Land and Maritime-VQH personnel and may prepare samples and begin testing.

Applicant's name and mailing address

Specification and date (w/amendment & date)

Specification sheet(s) & date (w/amendment & date)

Purpose of test

- ☐ Initial Qualification
☐ Complete Requalification
☐ Partial Requalification

D and C Change ☐
 Other (specify) ☐

Qualification testing, for the product(s) listed below, is authorized in accordance with the above specification.

QUANTITY

GOVERNMENT DESIGNATION

MANUFACTURER'S DESIGNATION

DLA LAND AND MARITIME TEST REPORT

The following limitations and requirements apply:

1. DLA Land and Maritime must be notified of the starting and estimated completion dates for the tests. Manufacturers are responsible for coordinating the starting date and supplying a copy of this form to the local government QAR.
2. This authorization will be canceled if the tests have neither been started in 6 months nor completed in 12 months. If an extension of time is necessary, notify DLA Land and Maritime-VQH by letter.
3. Only test equipment which has been determined suitable for qualification testing by this Center shall be used.
4. Products subjected to qualification tests must have been manufactured at the plant location indicated above.
5. If any disqualifying or serious test equipment problems are encountered during qualification testing, discontinue testing, and ask DLA Land and Maritime-VQH for instructions. DLA Land and Maritime is to be notified within 10 working days of the problem.
6. TEST REPORTS
 - a. One original test report, properly collated and fastened, must be sent to DLA Land and Maritime-VQH.
 - b. Compile test data under appropriate test report numbers employing DLA Land and Maritime Form 36F.
 - c. A separate test report number is required for each test report.
 - d. Each item of test equipment used, including the latest calibration date, must be entered on page 4 of DLA Land and Maritime Form 36F.
 - e. Actual readings of time, temperature, electrical, and mechanical measurements must be shown in the original test data. If calculations are required, the formulas must be indicated. Erasures or "white out" are not permitted. Corrections must be made by "line-out" with a single line; the correct entry must be made immediately adjacent to the "lined out" entry.
 - f. If you desire to make test reports available to GIDEP, please contact GIDEP Operations Center, Corona, CA 91720

7. Test Location(s) and test plan:

8. When testing is performed in more than one test location, the manufacturer of the product will be responsible for combining the results of the testing into one composite report for each product being tested.

9. The following conditions apply when applicable:

- a. Each test report must include a list of actual material used and a certification that this material meets the requirements of the specification.
- b. Design and construction data (engineering drawings) must be included in the report.
- c. All humidity charts identified with the assigned test report number must be included in the original test data (may include 3-day charts to cover weekends)
- d. One photograph of the shock wave to which the devices are subjected during the actual tests must be submitted with the actual test data.
- e. All tested samples, unless otherwise notified, shall be furnished with the test report at no charge to the Government. The samples will be returned if so requested at the time of submission.

MANUFACTURER REPRESENTATIVE:

The manufacturer is responsible for coordinating all testing with the Government QAR. The undersigned certifies that the information submitted to DLA Land and Maritime in this application is true and accurate to the best of his/her knowledge, and further, agrees to the conditions as stated in SD-6, paragraph 104.
